B. Identification of any other part found to be deteriorating and which requires to be rectified.

C. Observations and recommendations.

**Details of any defects:**

A.

B.

C.

**Declaration:**

**First Thorough Examination**

Subject to the satisfactory completion of any remedial work to defects noted on this report, which are or could become a danger to persons, the equipment is considered as having been installed correctly, and is safe to operate. (On the basis of a visual thorough examination of the equipment).

**Regular Thorough Examination**

Subject to the satisfactory completion of any remedial work to defects noted on this report, which are or could become a danger to persons, the equipment is considered as being safe to operate. (On the basis of a visual thorough examination of the equipment).

I hereby certify that the equipment detailed on this report was thoroughly examined (unless stated otherwise) and subject to any remedial action to defects shown on this report, which are or could become a danger to persons, the equipment is safe to operate. This report relates only to the condition of the equipment at the time of the Thorough Examination. It should not be regarded as evidence of the condition at any time. Nor does it remove the requirement for the user to ensure that the equipment is fit for purpose at all other times.
